Helping Veterans and Surviving Spouses Receive In-Home Care With No Out-of-Pocket Costs

Our exclusive **VetAssist® Program** helps those wartime veterans (or their surviving spouses) who choose to apply for a little-known pension from the Department of Veterans Affairs (VA), and use the pension primarily for private-duty home care or adult day care.

Home Care Starts Before VA Funding Begins

The VA may take months to process a claim for Aid and Attendance. One of the best features of the **VetAssist® Program** is the no cost, interest-free loan that allows VetAssist clients to begin home care right away. When the VA approves the claim application, our clients receive VA funds retroactively from the date their application was filed. Clients then use their retroactive funds from the VA to repay their loan.

What is "Aid and Attendance?"

This VA benefit is a **pension paid to veterans or their survivors** with an additional amount known as "Aid and Attendance" to assist those who are disabled and need help to live safely at home. While most people are aware that the VA compensates veterans who are injured or disabled as the result of military service, many are unaware that a pension exists for wartime veterans who do NOT have a service-connected disability.
