

# VetAssist<sup>®</sup> Care Plan

The VetAssist Care Plan embodies a comprehensive approach, integrating hands on in-home care support, safety and wellness checks, innovative remote monitoring, and effective care coordination. This plan is tailored to enhance overall wellness and independence for seniors, and surviving spouses, offering peace of mind and support for their families.

# Benefits of Integrated Care

The VetAssist Care Plan's integrated care approach enhances the wellness of seniors, going beyond treating symptoms to address overall well-being.

Through the collaborative efforts of our services, we bring heightened level of care to seniors, while working in tandem and synergizing efforts across multiple aspects of care.

- **Overall Wellness:**

Our care extends beyond addressing a single symptom or health concern. It encompasses a comprehensive view of each senior's health, considering their physical, mental, and emotional wellness.

- **Holistic Care**

We integrate behavioral, environmental, and social factors into our care plans. Understanding that health is influenced by a range of elements, our approach includes assessments and interventions that cover these diverse areas. This holistic perspective ensures that care is well-rounded and tailored to each individual's unique circumstances.

- **Information Sharing**

Effective communication within the care team is crucial. By ensuring that all members, from caregivers to medical professionals, and family members are well-informed and up-to-date, we facilitate a coordinated care effort. This open communication and information exchange leads to more informed decisions, better care outcomes, and ensures that all parties can contribute effectively to the senior's care plan.

## This extensive approach involves the coordination of:

- In-Home Care
- Continuum Care
- Health Monitoring
- Personal Connections
- Preventive Assessment

You are just a phone call or email away from a comprehensive care plan to help seniors age in place, improve quality of life and reduce hospitalizations.

Our VetAssist team can provide additional details on the benefits of the care plan, evaluate options, verify eligibility, and more.
